Review Essays on my Books

In total, **56 review essays** on my books have been published so far. Here are 35 of them:

- *The Science of Mathematics: Ultimately Theoretical or Practical?*, Eurasia Publications, Athens 2016.

The following four book reviews have been published on this book: 1. Constantine Lerounis, 6 Books from 2016 – A Selection. *Frear*: <http://frear.gr/?p=16459>, 2. Lakis Ignatiadis, ‘G. Evangelopoulos is wondering whether Mathematics is ultimately a practical or a theoretical Science?’: <http://stagona4u.gr/index.php/component/k2/item/6226-g-evangelopoulos-wonders-whether-mathematics-is-a-theoretical-or-practical-science>, 3. Demetra Christopoulou (Associate Professor of the Philosophy of Mathematics at the University of Athens Department of Mathematics) ‘In the beginning was Mathematics’ *The Books’ Journal* 85, March 2018. 4. Anthony Karabatzos, Associate Professor of Civil Law, University of Athens, ‘Mathematics as Queen and Servant-maid of the Sciences’, *Nea Hestia* 1880, March 2019.

- *Philosophy and Science, A Dialogue with Georgios L. Evangelopoulos*, Eurasia Publications, Athens 2004, 2nd and Revised Edition, Eurasia Publications, Athens, 2010.

Twenty-two reviews have been published on this book in the press and scientific journals. I have singled out for special mention only those authored by University Professors. 1. Stratos Galanis (Professor Emeritus- Athens Technical University) *Augi* (Sunday Edition), 16 January 2005. 2. Eleftherios N. Oikonomou (Professor Emeritus of Physics- University of Crete) *Scientific American* (Greek Edition), April 2005. 3. Athanasios Fokas (Member of the Academy of Athens, Professor of Mathematics- University of Cambridge) *Kathimerini* Sunday Edition 22 May 2005. 4. Dimitris Christodoulou Professor of Mathematics and Physics, Federal Technical University of Zurich), *Nea Hestia* 1783, November 2005. 5. Eftychios Bitsakis (Professor Emeritus of Philosophy- University of Ioannina) *Utopia* November – December 2005. 6. Panagiotis Benetatos (Associate Professor of Physics Kyungpook National University, Daegu, South Korea/ at the time Research Fellow University of Cambridge), *Deucalion*, A journal for philosophical research and criticism, 24.1 June 2006. 7. Dimitra Sfendoni –Mentzou (professor Emeritus of the Philosophy of Science – Aristotle University of Thessaloniki) in the electronic journal *Critica* 2011-08 (<http://www.philosophica.gr/critica/2011-08.html>). [Also published in print in Greek: *Critica – Philosophy Book Reviews* 2011, Eurasia Publications, Athens 2013, pp. 77-87].

- *Mathematics and Physics: A special Relation – Thoughts Occasioned by Revisiting Cornelius Castoriadis’ Work*, Eurasia Publications, Athens 2010.

Three books Reviews (all three by University Professors) have been published on this book: Dionysios Anapolitanos (Professor Emeritus of Logic and the Philosophy of Mathematics at the Athens University Department of the Methodology, Theory and History of Science) *The Books' Journal* 4, February 2011, Stratos Galanis (Emeritus Professor of Mathematics- Technical University of Athens), *Kyriatkatiki Augi*, 6 March 2011, Petros Ditsas (Associate Professor of Physics, Department of Physics, University of Crete), *The Athens Review of Books* 36, January 2013.

This book is referenced by E.N. Oikonomou, *From Quarks to the Universe, A short Tour*, 5th Edition, Revised and Augmented, Crete University Press, Heraklion 2018, p.6.

- ***Castoriadis and Contemporary Political Theory***, Eurasia Publications, Athens 2009.

A total of seven review essays have been published thus far. The three reviews I have selected for special mention were authored by Professorial staff: 1. Leonidas Louloudis, (Agricultural University of Athens) *The Athens Review of Books* 9, July-August 2010, 2. Aristeidis Baltas (Professor Meritus- National Technical University of Athens) *Kyriakatiki Augi* [Augi – Sunday Edition], 7 November 2011 [A brief review is included in his article ‘Further Encounters’] 3. Vasilis Bogiatzis, (Instructor at the Hellenic Open University) in the electronic journal *Critica* (<http://www.philosophica.gr/critica/2010-06.html>). [Also published in print in Greek: *Critica – Philosophy Book Reviews* 2010, Eurasia Publications, Athens 2011, pp. 69-78].

This book is referenced by Georgios Siakantaris, *The Great Absences, Hellenic Democracy on the Defensive*, Polis Publications, Athens 2011, p. 127.

Papers and Addresses as an Invited Speaker

1. Plenary Session paper as one of three keynote speakers at the Conference on “Humanities and Exact Sciences: Parallels and Intersections” organized by the Leontios School of Athens, Athens 24 November 2018.
2. “Theory in Christopher Hill’s Work”, Symposium in Honour of Professor Christopher Hill, European Foreign Policy Unit, International Relations Department, The London School of Economics and Political Science (LSE), 12/5/2017.
3. “The agent-structure issue in Foreign Policy Analysis – The ‘Macedonian’ issue”, The Hellenic Observatory Seminar, Hellenic Observatory, European Institute, The London School of Economics and Political Science (LSE), Αοvδivo, 7/02/2016.

4. 'On Stratos Galanis', 8th Interdisciplinary and Interuniversity Conference of the National Technical University (Dedicated to the Memory of Mathematics Professor of the National Technical University Stratos Galanis). Metsovian Centre of Interdisciplinary Research, 22 September 2016.
5. 'Andreas Papandreou, the Greek Socialist Movement and the recognition of National Resistance', a paper read at the event 'The Recognition of national Resistance and National Reconciliation', Hellenic Parliament Foundation for Parliamentarism and Democracy, Reconciliation National Park, Grammos, Kastoria, 3 July 2016.
6. 'The Science of Mathematics: Ultimately Theoretical or Practical?' a paper read at the 17th Meeting of the Rheumatologists of Northwestern Greece, Metsovo, 30 January 2015.
7. 'Anastasios Peponis: A Politician and an Intellectual', A Speech read at a Commemorative event for Anastasios Peponis at the Literary Evenings organized by Philologos. Thessaloniki, 19 December 2011.
8. 'Direct and representative Democracy-Contemporary Dilemmas', Continuing Educational Program, Department of Education, Philosophy, Letters and Arts, 1st Orthopedic Clinic of the Medical School of the University of Athens, Attikon University Hospital and Orthopedic Group of the Five Hospitals (Attikon/ Metaxas/ Nicea/ Thriasio/ Tzaneio Hospitals), 14 April 2011.
9. 'The Responsibility of Scientists- Lessons from Max Weber', a paper read at the 13th Meeting of the Rheumatologists of Northwestern Greece, Metsovo, 22 January 2011.
10. The relation of Philosophy with Science and Mathematics? An unknown aspect of the work of Cornelius Castoriadis. Paper read at the London Branch of the "Institute for Strategic and Development Studies- Andrew Papandreou. May 1998.
11. The Mathematical Work of Dimitrios Christodoulou. Paper read at a Municipality of Kalambaka event in honour of Dimitris Christodoulou, 6 September 1996.
12. 'What do Competitions contribute to mathematical education? A Critical Consideration of this institutional practice and suggestions for improving the preparation of the Mathematical Olympiads' Team'. The paper was initially read on March 9, 1995 at the Lamia Branch of the Greek Mathematical Society at the Awards' Ceremony for students who distinguished themselves in the 'Thales' Mathematical Competition.

Further Visibility Indicators

- My PhD Thesis “Scientific Realism in the Philosophy of Science and International Relations”, was included in the Syllabus of the Module “Agents and Structures of the International System”, taught by Nicholas Onuf, in August September 2013, at the Instituto de Relações Internacionais of the Pontifical Catholic University of Rio de Janeiro.
- At the invitation of the Editors, I contributed a paper to the essay volume in honour of Raymond Smullyan, Professor of Mathematical Logic: “Experiencing Raymond”, in Jason Rosenhouse (ed.), *Four Lives – A Celebration of Raymond Smullyan*, Dover Publications, Mineola, New York, 2014, pp. 19-21.
- Ross Honsberger, Professor of Mathematics at Waterloo University, includes some of my solutions in his following books:
 - In *Mathematical Delights* [The Mathematical Association of America (MAA), Washington 2004], he included my solutions to Mathematical Competitions Problems in a special chapter entitled ‘Three alternative solutions by George Evagelopoulos’.
 - In *Mathematical Chestnuts from Around the World* [The Mathematical Association of America (MAA), Washington 2001], he published four of my solutions to mathematical competitions’ problems in a specially dedicated Chapter entitled, ‘Four Solutions by George Evagelopoulos’.
 - In *Pólya’s Footsteps – Miscellaneous Problems and Essays* [The Mathematical Association of America (MAA), Washington, 1997], he included four of my solutions to Mathematical Olympiad problems, inserted in various chapters of the book.
 - *From Erdős to Kiev – Problems of Olympiad Caliber* [The Mathematical Association of America (MAA), Washington, 1995] he published ten of my solutions distributed over two chapters: ‘Seven Solutions by George Evagelopoulos’ and ‘Three more solutions by George Evagelopoulos’.
- Andrew Poulos in his book *Oedipus and the Sphinx: How to solve problems in Mathematical Competitions and Olympiads* (Savalas Publications, Athens 2002) published as a separate chapter entitled ‘The Role of Problems in Mathematical Science’ part of my paper ‘What do Competitions contribute to mathematical education? A Critical Consideration of this institutional practice and suggestions for improving the preparation of the Mathematical Olympiads’ Team’. The paper was initially read on March 9, 1995 at the Lamia Branch of the Greek Mathematical Society at the Awards’ Ceremony for

students who distinguished themselves in the ‘Thales’ Mathematical Competition.

- I have published more than 300 solutions to Mathematical Olympiad-level and University-level problems (including the William Lowell Putnam Mathematical Competition) in problems columns of international mathematical journals (mainly *Crux Mathematicorum*, *The American Mathematical Monthly*, *The Mathematics Magazine*, etc.)

TEACHING EXPERIENCE

➤ UNDERGRADUATE COURSES

Panteion University- Department of International, European and Area Studies

- **Introduction to International Politics** (with A. Gofas)
- **International Relations Theory** (with A. Gofas)
- **Philosophy and Methodology of Social Sciences** (with A. Gofas and K. Tsimonis)
- **Foreign Policy Analysis**
- **Greek Foreign Policy** (with K. Ifantis and C. Arvanitopoulos)

University of Piraeus - Department of International and European Studies

- **Foreign Policy Analysis**
(2016-17 and 2017-18, Independent teaching as a ‘Senior University Scholar’)

➤ POSTGRADUATE COURSES

Panteion University- Department of International, European and Area Studies- MPhil in International Relations and Strategic Studies

- **Theory & Methodology of International Relations**
(With H. Papatotiriou and A Gofas)
- **Contemporary Issues in International Politics**
(With K. Arvanitopoulos, A. Gofas and H. Karagiannopoulos.)

ORGANIZATION OF SCIENTIFIC CONFERENCES

- 2018 Member of the Organizing Committee of the Conference on 'The Abiding Relevance of Panayiotis Kondylis' Thought' Ancient Olympia (26-28 January 2018), Under the auspices of the Hellenic Parliament.
- 2004 - 5 Member of the Organizing Committee of the Second Modern Greek Studies Conference (Hellenic Observatory, European Institute, The London School of Economics and Political Science)

OTHER ACADEMIC ACTIVITIES

- 1994-2001 Several Interviews with natural scientists of international renown (as well as a philosopher, Cornelius Kastoriadis) for the Greek edition of *Quantum: a Journal for Natural Sciences and Mathematics* (Katoptro Publications). The interviewees included Cornelius Castoriadis Dimitris Nanopoulos, Dimitris Christodoulou, Photis Kaphatos, Giannis Iliopoulos, Alexandros Kechris, Sir Roger Penrose, Michael Green).
